## OBITUARY

Elizabeth Dolores Adams, the only child of Henry and P. Adams, was born at Erastus, O., October 11, 1900. She was a life-long invalid, never able to enjoy the pleasures and beauties of this life; but on December 19, 1918, she slept only to awake in another world, freed from the infirmities and hindrances of the flesh. Miss Adams had lived the greater portion of her life in Erastus, only recently having moved with her parents to Celina. She leaves her parents, grandparents and a host of relatives and friends.

There is a land where beauty cannot fade, Nor sorrow dim the eye; Where true love shall not drop nor be dismayed, And none shall ever die.

The funeral was conducted from the home on Sunday, December 22, by the Rev. M. J. Potts of Ft. Recovery, and her body was laid to rest in beautiful Spring College cemetery, where she peacefully awaits the resurrection morning.

The bereaved family have the sympathy of the entire community in this time of sickness and death of their daughter.

The family desires to thank those who so kindly assisted, for the beautiful floral offerings, and for the words of comfort and cheer that were spoken during the sickness and death of their daughter.

**WOMAN BOSSES MINE**  
Hunts Corporation Controlled Entirely by Her Sex.

Operates Garnet Mine in Alaska and Lead, Zinc and Silver Mines in Arizona.

New York.—From the far West there now comes to us the lady miner, Miss Anna Durkee, organizer and controlling element of a \$1,000,000 corporation run entirely by women. Miss Durkee operates a garnet mine in southern Alaska and lead, zinc and silver mines in Arizona. She is the largest individual mine owner in the Outman district of Arizona, and the most widely known woman in the mining world.

It was while she was in Alaska seven years ago, investigating a proposition in copper, that Miss Durkee first became interested in a garnet mine, was given an option on it and finally took it over in the name of a corporation which had a board of 15 women directors.

At the beginning the mine did not seem to amount to a great deal, but as Miss Durkee began to develop the first claim with which the corporation started, veins were discovered opening out in every direction, and as the work continued the amazing fact dawned that the entire mountain was a gigantic mine of the beautiful crystals, with ledges of garnets extending from the sea level to a distance of 3,000 feet up the mountain side.

But the greatest value of the deposit consists in a by-product of garnet waste, discovered by Miss Durkee, who passed two years in a chemical laboratory working it out. She had observed that certain waste material did not fuse with iron or brass, and following this up, she discovered a new use for the waste garnet, of which there were hundreds of thousands of tons. "Ground to a certain mesh and put through a secret process the waste garnet makes a separating powder valuable in foundry work," she stated.

The garnets of Miss Durkee's mine are of the finest variety, almandines. Because of their beauty and hardness, geologists have given them the name of "precious garnets."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system. It cures catarrh in its foundation, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. **WATCH FOR LOANS TO HUNS**  
American Defense Society to Make Public Names of Banks Which May Aid Tautons.

New York.—A resolution passed by the national boycott committee of the American Defense society makes it discriminatory lending by American banks to Germany a more or less hazardous business from a financial point of view. It is intended by the society that American depositors have a right to be notified in advance of any intention on the part of the banks to lend their money to build up German countries, and it holds itself ready to inform the depositors if their money is so used without their consent.

"The principle involved is quite clear," said Richard M. Hurd, chairman of the national boycott committee. "It is analogous to the bill just introduced by Senator Lodge, providing that the public should be informed of all stores dealing in German goods by having a conspicuous sign placed over their doors, 'Dealer in German Goods.'"

"Americans have not forgotten the infamous atrocities of the Germans and, what is more, their entire sympathy and ruthlessness aim for world domination, which Germany's enforced surrender has in nowise altered. Every aid given by the allied countries toward building up Germany brings nearer the day of Germany's next war upon the world."

**WELL-KNOWN BUFFET CLOSES**  
Famous Place in Boston Frequently by Men of Affairs to Go Out of Existence.

Boston.—"Fennel's Place," Boston's famous buffet bar, where men of affairs long have met to have a friendly "nip," will pass into history in May because of wartime prohibition.

Tucked away in a quiet spot close to busy Downtown street, "Fennel's" has stood for 40 years, presided over by John Fennel. The lease expires in May and Mr. Fennel has decided to close up.

"Combination" is the popular drink at "Fennel's." It consists of whiskey with a "chaser" of ale. Famous party soirees visiting the city were always taken to "Fennel's" to try the "combination."

Mr. Fennel is said to be the country's most famous purveyor of wines. He has traveled over Europe all his life collecting choice wines. He has paid as high as \$125 for small bottles put up in the latter part of the eighteenth century.

**WILL ACT AS MESSENGERS**  
For Uncle Sam, Interpreting Mr. Hoover's Appeal For International Food Sharing—Other Conservation Lessons Are Planned.

Columbus, O.—(Special).—School children of Ohio who have faithfully followed every conservation measure of the Food Administration during war time are now studying the Hunger Map of Europe, where Mr. Hoover has gone to make a survey of conditions preparatory to making a new appeal for Food Conservation for World Relief.

Before Mr. Hoover returns from Europe the school children of Ohio will have familiarized themselves with food conditions abroad and will be prepared to carry home to their parents and interpret the food messages as they come from Mr. Hoover.

**Conservation Lessons.**  
The Ohio division of the United States Food Administration has prepared a series of conservation lessons for the schools, one for each week.

The first lesson is to be introduced Friday, Dec. 6, which has been designated as School Conservation Day for World Relief. This lesson is based upon Mr. Hoover's message, prepared just before Mr. Hoover's departure for Europe. Other lessons will deal with conservation of fuel and clothing. The Ohio Fuel Administration is co-operating in the preparation of the lessons.

**MR. HOOVER'S MESSAGE TO THE GIRLS AND BOYS OF AMERICA.**

"Now that the terrible war is over you must be glad that you helped to win it by saving food for our soldiers and our unhappy friends across the sea. But our work of feeding hungry people is now to be greater than it has ever been. Many millions of people have been made free by our victory, but they are in the greatest danger of death from starvation. They look to America for food until the next harvest.

We must go on saving and sharing with them as faithfully as ever. And, of course, you will want to do your part as you have been doing. We have a greater task than any of us can imagine in saving the world from famine, but we can do it if each of us does all he can. I am counting upon you! Faithfully yours, (Signed) HERBERT HOOVER.
